For all Applications, please attach the current sewerage drainage plans for the premises that include the following detail at a minimum;

- All sewerage drainage, including identification of specific liquid trade waste drainage
- Waste fixtures that drain to sewer
- Liquid trade waste pre-treatment devices

Please attach the following supporting documents

- Icon Water Grease Trap Identification Form
- Unit/Shop Location Plan
- Building Drainage Plan
- Individual Unit Drainage Plans (where Application covers multiple units)
- Any other supporting documents

Declaration

I/we, acknowledge and agree that: I/we have the consent of any relevant individual(s) to provide any personal information in relation to them as part of this application and have provided them with information on how to access Icon Water's Privacy Policy, available at Privacy Policy.

1. All information provided on this application is, to the best of my knowledge, after having made due inquiries, complete and accurate.
2. I/we must notify Icon Water in writing within 30 days if any information provided in this application changes, becomes incorrect, inaccurate or incomplete.
3. I/we must ensure that any business or tenant operating at our premises will:
 - install, maintain and operate any equipment at our premises in accordance with applicable laws and standards, including applicable plumbing codes and Icon Water's Service and Installation Rules;
 - install, maintain and operate any pre-treatment facilities and/or equipment in accordance with Icon Water's Approval and Guidelines;
 - not discharge liquid trade waste to the sewer from the property other than in accordance with Icon Water's Liquid Trade Waste Acceptance Guidelines, applicable utility and environmental laws and any approval issued by Icon Water. Penalties may apply for any non-compliant discharge of liquid trade waste; and
 - permit Icon Water employees, contractors and agents access to the property on reasonable notice by Icon Water for the purpose of inspecting equipment and facilities used to treat and discharge liquid trade waste and take samples of waste discharged to our network. You may ask the attending Icon Water employee, contractor or agent for photographic identification. Our personnel will observe all reasonable and lawful safety rules applicable to the property.
4. I am/we are responsible for all costs and charges incurred in making this application and compliance with applicable laws, standards, guidelines and codes and any Approval issued by Icon Water, including but not limited to, the installation, maintenance and operation of any pre-treatment systems and associated equipment at the property.
5. I/we have full legal authority to submit this application and duly execute this contract (agreement) for and on behalf of the owner of the property that is the subject of this application.

I/We acknowledge the above *
