

This term we want to support your teaching and students learning at home! That's why our education program is now available online. Our goal is to help your students understand and care for the ACT's water and wastewater resources.

Digital Education Sessions

You can now book a digital education session for your class in term 4! Learn about water and wastewater virtually with our amazing education team. These free sessions have been tailored to meet your student's curriculum outcomes. Your class will learn about how we deliver some of Australia's best water to your tap and treat the wastewater from your home and school. Are you interested in booking an online session?

Download our Education Resources

We have a range of resources available to download for free on our website. Our [education activities](#) and [lesson plans](#) are tailored to meet your student's curriculum outcomes. This includes our new '[Drains and Pipes](#)' board game. This fun and engaging activity is designed to educate students on the ACT urban water story.

Looking for more activities, don't forget [National Water Week](#) is 18 – 24 October

Care for Water

With summer just around the corner, it's time to start thinking about water conservation. Caring for water starts with you, and your students. Share this '[Questions for Kids' video](#) with your class and learn about some great water-saving tips that can be used at school, or at home! Do you want to find out more about water conservation? Download some water-saving activities [here](#).

Free the Poo

Icon Water has recently launched our new Drain Care campaign 'Free the Pool'. This gross subject can be a seriously fun learning experience. To find out more about the campaign, check out [our website](#).

To flush or not to flush? That is the question! Get your students to investigate this at home. Download our drain care experiment [here](#). Your students will learn why it's important to only flush the 3 Ps- that's Pee, Poo and toilet Paper!

**Wet wipes
block pipes.
Bin them.**
